TIPS FROM WELLNESS IQ

Team Tips:

Show & Tell – Schedule regular conference calls with video to show off your current situation, as crazy as it may be! Pets, kids, a cool office space or even your favorite pajama pants! Embrace this unique situation by getting to know a new side of your teammates and taking a few minutes to laugh together.

Virtual Lunch and Learn - Replace lunch meetings with meal delivery services such as Grub hub, DoorDash or Uber Eats. Interested in pairing this with a WellnessIQ lunch and learn? Let us know [here](#) !

Participate in a team or company-wide challenge - Company-wide challenges can foster camaraderie and awareness and help employees focus on daily goals and tasks to support their health and happiness. Whether you band together to donate to a greater cause, or do an at-home workout to keep yourself (and team) accountable, connecting people across your organization through wellbeing challenges gives them the opportunity to take action together and continue the focus on people, culture and values.

Take the Mindful Approach – Check out [these tips from Headspace](#) for taking a mindful approach to helping your team through the current global crisis.
